DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4, 6-37, 39-63 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is unclear if applicant intended to claim a combination including a work surface and floor since a movable support system is claimed including a mounting structure, track system, work surface, display device with specific interconnection with a work space and floor such work space and floor not being positively claimed making the metes and bounds of the claims unclear and confusing to a potential infringer. Clarification and correction are required.

Claim(s) 1, 18, 34, 51, fail(s) to recite sufficient structural elements and interconnection of the elements to positively position and define the sufficient distance, slot, gap, passage and clearance so that an integral structure able to function as claimed is recited.

Allowable Subject Matter

Claims 1-63 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
